THE JOURNAL OF TOKYO MEDICAL UNIVERSITY

Vol. 59, No. 2

CONTENTS

Foreword

TOKITA, M. .......................................................... 97

Farewell Lecture

SHIBUYA, T.: Utilizing multimedia in the areas of education, research and medical care,
and its significance ............................................ 99

Originals

AKIYAMA, A., SAMEJIMA, T., YAMAMOTO, S. et al: Basic and clinical evaluation of a
newly developed enzyme immunoassay for detection of serum prostate specific antigen ..........107
ONITSUKA, T.: Evaluation of intra-arterial infusion of papaverine for cerebral vasospasm after
subarachnoid hemorrhage by quantitative analysis of cerebral circulation using a ring-type
gamma camera SPECT .............................................114
OSHIMA, Y., ISOBE, T., KATO, Y. et al: Analysis of chemical mediators, cytokines, and helper
T cell subsets in areas where contact dermatitis was induced or an antigen patch test
was conducted in patients with atopic dermatitis .........................................................123
HAYASE, H.: The role of the pyloric ring after proximal gastrectomy in pigs .........................131
KATO, N., HOSHIKA, A., TAKADA, E. et al: Requirement of Vav for anti-IgM-induced apoptosis
and the decline in mitochondrial membrane potential in CH31 B lymphoma cells .................142

Case Reports

KAWASHIMA, H., YAMADA, N., UEJIMA, H. et al: Changes in EEG findings during
methyprednisolone pulse therapy in a case of influenza encephalopathy ................................149
YAMANAKA, G., MIYAJIMA, T., MATSUURA, K. et al: A case of early-onset globoid
cell leukodystrophy ..............................................154
ABE, K., YAMAMOTO, K., NEMOTO, T. et al: Three cases of pulmonary embolism
following total hip arthroplasty ........................................159

Plaza

NUMABE, H.: Report on Genetic Counselling Clinic at Tokyo Medical University Hospital ...............165

Clinical Conference

Abstracts of the 305th Clinical Conference
The incidence of pulmonary embolism after arthroplasty of the lower extremities ..................169

Research Meeting

Abstracts of the 11st Angiology Conference of Tokyo Medical University ..........................180
